

OPENING OPPORTUNITIES

ANNUAL THEME 2021

Around this time last year COVID 19 was one of the biggest frights around the world and Uganda was waiting on when it would be registering its first case. Almost a year later, here we are living with COVID-19 as the New Normal or you can call it the new abnormal depending on your point of view.

emerged. However the question is; does the community know these opportunities? Are they accessible, are they known and are they open to the community of Young people living with HIV in Uganda?

Today, the resilience that has taken us this far is being tested. Now more than ever we must come together to create new innovations for the YPLHIV where they can be able to access HIV/SRHR services, create extra seats for them, on forums, to front issues that are affecting them, as well as, brainstorm ways of creating an enabling environment and safe spaces in Uganda. Also, not leaving out the key attributes that have made the HIV response so unique, ensuring that we push forward integrated care and prevention approaches that will work for all people living with or at risk of HIV hence the necessary adaptations in the current setting is key to help set the emerging new generation of YPLHIV leaders on the path to future success.

Walk with us this year as we strive towards “OPENING OPPORTUNITIES” for YPLHIV in Uganda and beyond as we adapt to the new normal
